INNOVATIONS AT CIRED 2019

Odit-E

Start-up feria

Several innovations were introduced to celebrate the 25th birthday of CIRED and its constant evolution, one of them was a pavilion dedicated to start-ups, the start-up feria. 3 CIRED start-up awards were given to the best start-ups: Odit-E, Orxagrid and Adaptricity

INNOVATIONS AT CIRED 2019

E-posters and touch screens

The second big innovation introduced at Cired were E-posters and touch screens displayed in the hall. This technology allowed an all time access to all posters and was spread in the classic poster session (with its renowned guided tours).

A unique opportunity to have an in-depth discussion with authors and to find whatever poster that could interest you.

Best Young Academic Award

Awards given to the best papers written by young academics.

Congratulations to our 6 winners :

Kariakos Petrou (Australia), Vineetha Ravindran (Sweden), Amelia Nadal (France), Christina Sűfke (Germany), Sebastian Palm (Germany) and Willem Haanstra (Netherlands).

TESTIMONIALS OF ATTENDEES

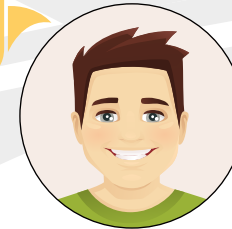

It was an excellent opportunity to meet the experts and learn the new ideas in the field of distribution.

Full of knowledge and opportunities

Excellent organisation and technical content. Very high profile attendees that give great value to the conference.

Great as usual! The best industry conference for distribution networks in the world.

This was by far the best CIRED that I have attended. Exceptionally well organised and delivered, huge range of technical content, readily available all in an excellent location. Well done to the organisers for delivering such excellence.

Very good experience. Very good organization. I really liked it. I hope to make it to the next venue.

It was a wonderful experience to know about the latest developments in the sector.

Good networking event. Great poster sessions!
